Success Testimonial

❖ **I Lost 30 Inches & 15 Pounds in 30 Days!** ❖

My Story...

I used to be a fitness fanatic and gymnast. Then I had an accident in that left me bedridden on and off for 9 years. After the accident, the steroids and other medications caused me to quickly escalate to a size 24! Over the years I fluctuated mainly between Size 18-24, and no matter what I did, I could not lose any of the weight.

I could no longer exercise due to my injuries so I tried all kinds of diets and diet pills to try to compensate without success. I would lose a few inches or a few pounds, but as soon as I went out to dinner and ate normal foods, I would gain it back and then some. In fact, the last popular diet program I tried, I lost 1 pound per month for 3 months and just couldn't bring myself to continue - it was too much deprivation and too much work for too little results. Then, when I turned 40 it became even more difficult – I couldn't lose anything at all. So I was desperate!

However, when the product was introduced to me by a friend, I told her I wasn't interested because I had tried everything over the years and absolutely nothing had ever worked for me (and I was pretty sure her product wouldn't work either – especially in an hour!). After so many disappointments, I had given up hope of ever losing weight and looking great again. Then I ran into her a few weeks later and I noticed her results right away and she told me how well it was working for her and her friends – people who could never lose weight just like me! I still was

My Story...Continued

skeptical so she gave me one to try and said "It's free - what do you have to lose?" (Now, I realize A LOT!) So I agreed to use the product reluctantly and skeptically.

I still didn't really believe it could work, so I took it home and didn't use it. When we talked again she gave me an update on how well it was working for people like me who have tried everything without success. So I decided to finally try it that night. I didn't even do it right and I got results. I woke up in the morning and the wrap was completely off my stomach wrinkled up with the gel still inside it and I couldn't even find the Saran Wrap! Yet, I felt the difference immediately before I even got out of bed. I had only measured my belly button area and when I re-measured, I had lost 2" there, but the loss above that area was so dramatic I could see it clearly without even measuring! I realized that if it could do that much in one night, without doing it right, what would happen in a month if I did it right?! So now I had to have more!

In the meantime, everyone I mentioned it to either wanted the product right away or wanted to sell it! But I wasn't even selling it - yet! I realized I had discovered the most amazing thing I had ever seen for weight loss and I had to tell everyone! So I quickly called my friend to find out how to become a distributor and signed up.

Those wraps couldn't arrive fast enough! When they did, I immediately applied the first "official" Ultimate Body Applicator (as the wraps are officially called) that night and lost 10 inches overnight (4=waist/4=hips/2=stomach)! I could immediately see the difference just by looking - I couldn't believe my eyes! I had to re-measure because I was sure I measured wrong. But it was the same measurements - I had lost 10 inches! It was just too easy!

So I couldn't wait to try the second wrap to see if it would continue to work - and it did! I did the second wrap and started using the Defining Gel twice a day and I lost 8 more inches (2=waist/2=buttocks/2=thighs/2=calves)! Then I knew for sure it was really working and my first one wasn't just a fluke!

Everyone who saw me was also amazed at the dramatic results, especially the ones who had seen me one week earlier! That kind of results gets attention! Everyone kept asking if I was losing weight too, or just inches. I hadn't weighed myself because I rarely lose pounds even when I diet. Finally, I decided to weigh myself and I had lost 8 pounds! I couldn't believe it! So with just 2 wraps, I had lost a total of 18" and 8 pounds in 8 days! I realized I had discovered a weight loss miracle!

So I immediately started contacting my friends who had seen me struggle with my weight for years and when I told them about my results, they were excited too! They all wanted the product immediately - and some of them wanted to sign up as distributors on the spot! Then they started telling their friends and family and they told their friends and family and so on...until I was overwhelmed with phone calls and emails from everyone wanting the product and wanting to become distributors! I was ordering wraps constantly - sometimes 100 at a time - and selling out immediately! They didn't even want to wait for their orders to arrive in a few days - they wanted to borrow mine to use immediately! Everyone was getting the same amazing results! It was so exciting - I just couldn't believe it!

Then we decided to do a trade show to promote the product in our area for the first time. We set up a display at a home show and we measured and wrapped people and asked them to return in 45 minutes to be re-measured. We all had experienced great results with ourselves and our friends, but we weren't sure what to expect in 45 minutes with so many different types of people. We were constantly amazed as person after person, regardless of age, gender, body shape and size, etc. lost between 1 and 7 inches in 45 minutes. When we followed up with them in 24 and 72 hours, they had continued to lose inches. Needless to say, they lost a lot of inches and we gained a lot of happy customers and distributors!

My Story...Continued

From the moment I lost the first 2 inches, I had been worried that the results were only temporary like everything else I had tried. Unfortunately, I had the chance to find out. I was cooking and got a bad steam burn on my forearm (from my hand to elbow) so I was afraid to put anything on my skin or body while it was healing. Then I left for a trip to Phoenix - and we literally ate our way through Phoenix! During that 2 weeks, I did not use any of the products so I was worried that I would gain it all back. But I kept checking and it appeared that it did not come back! Now I was really amazed!

So I couldn't wait to get home and continue with my results. When I returned home I started using the products again, alternating between the body wrap, neck wrap and facial wrap (I didn't know that I could do them at the same time every 72 hours so I was alternating one per week). I did not use the Defining Gel twice a day like I did in the beginning and I noticed a definite difference in the number of inches I lost per wrap. So after reviewing my results, I realized how important it is for me to use the Defining Gel to get the maximum results! I also realized that although some of the wraps did not produce dramatic inch loss, my body was toning and firming as if I was exercising. Especially amazing was the toning and lifting of my buttocks, which was always the most difficult area to tone and lift when I worked out!

To date, my total results are 30" and 15 pounds in 30 days. Considering that I am only 30 days into my 90-day body makeover, I am very excited! I am now convinced that I can regain my perfect figure again - even though I cannot exercise like I used to - something I never dreamed could happen! I recently attended my sister's wedding and I had to buy a new outfit the night before the wedding because the dress I brought with me was too big! I couldn't find anything that fit so finally the sales associate had to bring me the palazzo pants from the regular size department - not the plus size! Now that's a plus size girl's dream come true! (See Size 16 Picture)

So I'm looking forward to the next phase of my 90-day body makeover. Our company provides many exciting supplements that I have been anxiously waiting to try. But I wanted to see the extent of the results from using only the Ultimate Body Applicators and the Defining Gel. After 30 days, I am convinced beyond a doubt that they work and can produce the desired results for someone who does not want to take any supplements. So I am excited to add the supplements to my program to accelerate my results in the final 60 days of my 90-day body makeover.

So if you are like me, and you have tried every diet plan, every diet pill, and every exercise program to lose weight, without success, just remember that you haven't tried this! This may be the miracle you have been waiting for! In fact, I call it my "Miracle Wrap"! I am so grateful to my friend for "persistently" sharing these products with me that have changed my life so quickly and dramatically that now it is my mission and passion to share it with everyone everywhere!

This is one of many success stories by users of the It Works Skinny Body Wrap. Weight Loss products are a huge and profitable target market. In addition, a product like this that offers such fast results is a great business opportunity.
