Clean Faster and Save On Cleaning Supplies With This All Surface Floor Cleaner – The Shark Steam Pocket Mop
Visit: <http://www.recipes4success.net/start-cleaning-biz.html>

Description:

The Steam Mop is designed to thoroughly clean floor surfaces, such as marble, ceramic, stone, linoleum, sealed hardwood floor and parquet - with the Glide attachment it will even clean carpets and rugs. It achieves a high degree of hygienic and increased cleansing power by converting water into steam and using a microfibre floor cloth for enhanced absorbency. Dirt and grime can be eliminated in a matter of seconds!

Since the Steam Mop uses the active power of 1500 watts of steam from ordinary tap water, without the use of detergents or soap, it's environmentally friendly. The steam dissolves the dirt and the microfibre pad takes it up. The microfibre pad is absorbent and dries also the floor and, being washable, feels like using a brand new mop every time.

The Steam Mop is ultra-light and versatile and it's flat, triangular head cleans effortlessly behind furniture, along base boards and in every corner.
